

HEY MRS. DJ—HEY MR. DJ

CONGRATULATIONS.....

We are back on the air (as you can tell) and will be going strong until the summer one week break. Last semester we all made quite a bit of positive changes and progressions. There was great improvement in our consistency of attendance, quality, relations, and maturity, while not losing the spontaneity and fun of college radio.

And this semester is beginning with increasing luster and action:

- Our schedule is packed with unique/original shows (more than I have seen in my years of listening to college radio: at least ten new ones (ie: old school hip-hop, techno, old radio broadcasts,) plus the many returning from years of great service
- The program guide is finished and is amazingly graphic while readable (thank Jason of More Than Music for the hours of work)
- We will have a booth in the Union foyer Friday January 24th to give away: Guided by Voices, Jon Spencer, and Grand Royal CDs and paraphernalia (stickers, posters, tickets...) as well as the beautiful program guides (and hopefully t-shirts)
- We welcome back a couple of WBGU old schoolers as well as The Color of Politics w/William Wilkins
- The world famous SCRAWL (from Columbus) will grace Howard's stage on Thursday February 13 (thanks to Dan Stutzman)
- On each of the currents there will be blank white labels for all of us to write little mini reviews (w/ initials of reviewer) because the music directors don't always have time to review each one and so we all can be more part of the music process... and if you hear a tune with one of the seven godly words won't you please cross it out...

!!!!Don't forget to fill out the CD & TRANSMITTER log, play the 7 currents an hour and come to the bi-weekly meetings (every other Tuesday @ 9:00pm) and most importantly don't forget to promote your/our station with your "on air" banter & style and "off air" talk and promotions!!!!

*thanks to all of you doing the overnights * the crazy 6 am jazz men (and soon to be womyn)*the sports* all the music directors for really building us*

extra special thanks to all the DJs who have been here for years and consistently do great shows.... we all appreciate your dedication and quality broadcasting.

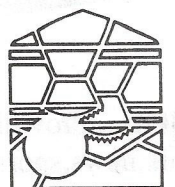

PLEASE...if any of you want to help, have ideas, or generally want to become more involved with the station: come to the executive meetings, speak up at the regular meetings, put notes in the mail box, write letters, e-mail me (kwolek@bgnet.bgsu.edu), call me (352-9653), or just start on your own come get involved...we want your help

WBGU....Providing an outlet for the Underground
